CORONA VIRUS UPDATE 36 Remote Learning Timetables for Monday 11th January

Dear Parents,

I attach timetables for remote learning for Reception, Years 1 and 2, 3 and 4 and 5 and 6. We have sent this information out at the weekend so you have a good overview of the range of lessons through the week. It may help those of you who have other work commitments at home to plan your day.

You have all received your pupil log in details for Google Classroom and you will see we have improved the presentation of teaching with Zoom sessions, videos etc. Please bear in mind that there may be one or two variations to timetables as this is a new development but we hope that it makes the home learning experience a positive one. Equally, we hope that some of the new changes will assist you as you work with the children. The timetable reflects the school day and we hope that this structure is beneficial to all our children.

Staff have worked hard this week in preparation of resources and most families have collected work books from school at the appointed times. I am very grateful for their response in this climate. I hope we all manage to maintain good internet connection but we all understand over the coming weeks, there may be downtime with so many people logging on in the localities. Some laptops will be issued by school next week to certain groups of disadvantaged pupils and we look forward to receiving more.

I would particularly like to express my gratitude to Ms Pritchard and Miss Sharrock who have worked so hard this week on reorganising the learning in and out of school and to administrative staff and teaching staff who have committed so well to managing change at such a stressful time.

So whether your child is in the school building next week or beginning Monday at **home school** I wish them every success.

Yours sincerely,

Kieran A Loftus Headteacher
